

## DEPARTMENT OF PUBLIC WORKS & PLANNING

### **SENIOR ENGINEER** (Registered)

**\$67,210 - \$70,746 DOQ**

An additional 5% compensation is given in addition to the base salary for California Civil Engineer registration.

**The County of Fresno's, Department of Public Works & Planning** has excellent career opportunity for an experienced Engineer in the Road Operations Section, Maintenance and Operations Division.

The Senior Engineer in the Road Operations Section of the Maintenance and Operations Division is responsible for the supervision of staff engaged in managing the Pavement Management System, rail-road crossing maintenance, road closure and permit detours. The position directly reviews and comments on designing and field engineering day labor projects, road encroachment permits, road vacations, and the coordinating of tree trimming and removal requests. The Senior Engineer is required to interact with property owners, developers, engineers, and other individuals necessary for the processing of road encroachment permits.

To be successful in this position, you will be well rounded in all phases of Road Operations Engineering, possess superior knowledge of engineering principles and practices, and have well-honed organizational, time management, and leadership skills. The ability to clearly communicate verbally and in written form, to be comfortable in public forums, and to think critically and creatively, is essential. It is crucial that you be able to establish and maintain effective interpersonal relationships with co-workers and with the public, and to consistently demonstrate the high degrees of initiative, integrity and good judgement.

<b>MINIMUM QUALIFICATIONS</b>	
<b>EXPERIENCE</b>	Four (4) years of full-time, increasingly responsible professional engineering experience equivalent to that gained as an Engineer or Senior Engineering Technician with the County of Fresno.
<b>REGISTRATION</b>	California registration as a Civil Engineer.
<b>LICENSE</b>	A Valid California Class "C" Driver's License is required. <b>(Please indicate your California driver license number and expiration date in the Special Requirements section on the front of the employment application.)</b>

#### **ESSENTIAL FUNCTIONS:**

- Supervises staff engaged in managing the Pavement Management System.
- Supervises engineering day labor projects, issuing road encroachment permits, requests for road vacations, and the coordinating of tree trimming and removal requests.
- Coordinates work with utilities and utility engineer.
- Provides direction to engineering staff and office personnel.
- Evaluates performance of staff and addresses personnel issues.

**COMPETITIVE PROCESS:** (Tentative)

Depending upon the number of applicants meeting the minimum qualifications and filing requirements, applicants may be scheduled for one or more of the processes listed below:

- **Achievement Rating Panel** – A panel, consisting of at least two members within a similar field of expertise as the vacancy, will review application materials in order to evaluate the specific qualifications of each applicant.
- **Oral Examination** – A panel, consisting of at least two members within a similar field of expertise as the vacancy, will ask structured questions to which applicants must respond orally in order to evaluate the specific qualifications of each applicant.
- **Rate and Refer** – Referral of the accepted applicants to the department with the vacancy for an interview.

**REQUIRED APPLICATION MATERIAL:**

- Fresno County Employment Application (Please indicate your California driver license number and expiration date in the Special Requirements section on the front of the employment application.)
- Copy of Valid California registration as a Civil Engineer
- Resume

**FILING DATES:**

- **This recruitment may close at any time. Candidates are encouraged to submit their application materials as soon as possible.** (Applications may be delivered in person, mailed, faxed or submitted electronically (see web-site for electronic application)).
